| Env vars | Supabase keys | Done |
| Testing | All flows | In Progress |

## Client Interaction (Sagar Patil)

| Date | Comment |
|------|---------|
| 3rd June | "Use India flags in guest list." |
| 10th June | "Login page should be senior-friendly." |
| 15th June | "Can we try a dark theme for cabins section?" |
| 20th June | "Add allergy notes option in breakfast." |
| 27th June | "Add logo before demo." |

## 🪻 Suggested Jira Labels

- `frontend`
- `backend`
- `auth`
- `supabase`
- `file-upload`
- `client-feedback`
- `responsive`

## 🌧️Final Notes

- Use [Jira Board View] to drag tasks across To Do → In Progress → Done.
- All tasks are assigned to yourself.
- Add your simulated client (Sagar Patil) as a Jira user if desired.
- Export Jira project to CSV if needed for resume.

Would you like me to create a Notion version of this plan as well?
